

MEETING GIRLS' NEEDS DURING COVID-19

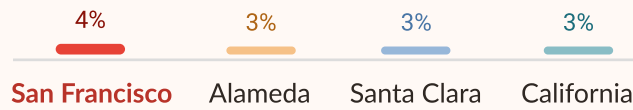

This data is compiled by Alliance for Girls' (AFG) youth research team. In March 2020, this short survey was developed for girls* in California up to age 24 for an ongoing data analysis at different time points of girls' experiences during the COVID-19 crisis. This current snapshot captures 1022 responses from girls as of January 20, 2021. As AFG collects more data, it will present it with an intersectional analysis. To see previous data snapshots, please visit the research section of Alliance for Girls' website: www.alliance4girls.org/research

As of January 2021, we have heard from 102 Girls* from San Francisco County.

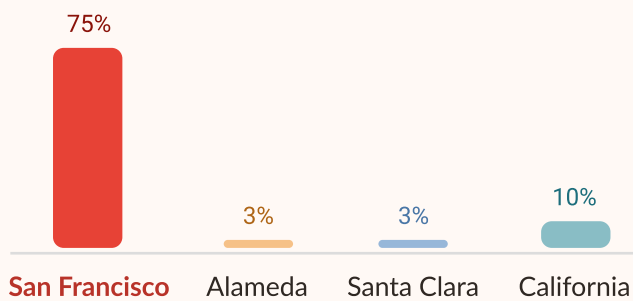

They described their gender identity as:

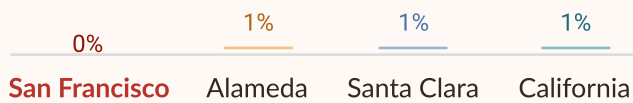

Female

Non-binary

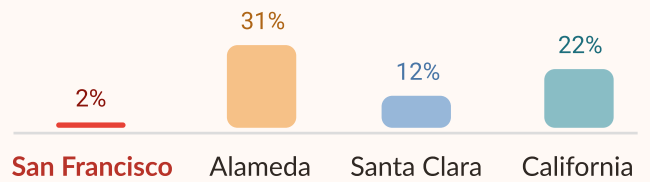

Not Answered

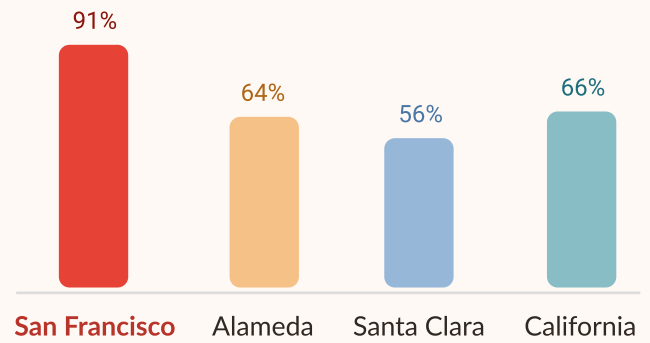

I am not sure

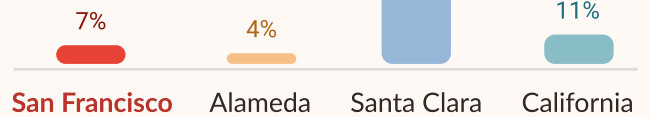

Their ages ranged from 5-24, with the average being 15.1 years.

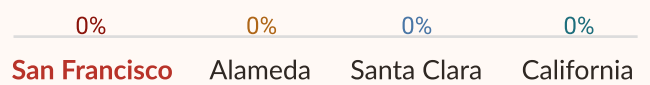

≤13 years

14-19 years

20-24 years

Not Answered

*"Girls" refers to gender-expansive youth (cis girls, trans girls, non-binary youth, gender non-conforming youth, gender queer youth and any girl-identified youth). Help us get more responses by sharing the survey with girls here: tiny.cc/Mgnicovid19. Email our Advocacy Manager at haleema@alliance4girls.org.

**Non-binary refers any girls who responded Gender non-conforming, Non-binary, Gender Expansive, Gender Queer for gender identity
